SHADRECK NGOMANE

Junior Analyst | Data Analyst | Applied Mathematician

+2776 056 2528 | shadrackherot@gmail.com | South Africa | linkedin.com/in/shadreck-ngomane | github.com/ShadrackHero

PROFESSIONAL SUMMARY

Applied Mathematician and Junior Analyst with hands-on experience in data extraction, transformation, validation, reporting and visualisation. Proficient in SQL, Microsoft Power BI (dashboards, Power Query, data modelling, basic–intermediate DAX), advanced Microsoft Excel and the full reporting lifecycle. Strong quantitative foundation from BSc and BSc Honours in Applied Mathematics, with MSc research in progress on hybrid forecasting models. Skilled in data cleaning, quality assurance, stakeholder communication and delivering accurate, actionable insights. Fast learner, available immediately and open to Data Analyst, BI Developer, Business Analyst and related junior roles.

EDUCATION

University of Johannesburg

- **Master of Science in Applied Mathematics (Research, in progress)**
  Thesis: A Hybrid Approach to COVID-19 Forecasting: Integrating Deterministic Models and Machine Learning Techniques
- **Bachelor of Science Honours in Applied Mathematics**
- **Bachelor of Science in Applied Mathematics and Mathematical Statistics**
- **Certifications and Short Learning Programmes**
  Artificial Intelligence in the 4IR
  Financial Literacy: Be Money Wise

TECHNICAL SKILLS

SQL: Data extraction, joins, aggregations, filtering, validation, transformation and analysis from multiple sources

Microsoft Power BI: Dashboard development, Power Query, data modelling, basic–intermediate DAX, visualisations and management reporting

Microsoft Excel: Advanced – Power Query, Pivot Tables, Power Pivot, XLOOKUP, advanced formulas, data cleaning, analysis and reporting

Data Analysis & Quality: Cleaning, validation, reconciliation, anomaly detection, trend identification, documentation and full reporting lifecycle

Quantitative & Statistical: Applied Mathematics, Mathematical Statistics, forecasting concepts, numerical analysis

Additional: Python (analytical concepts), R (university practicals), stakeholder communication, problem-solving, collaboration, continuous learning

PROFESSIONAL EXPERIENCE

Junior Analyst | MobiLife Technology Services (Pty) Ltd | June 2025 – 2026

- Extracted, transformed and validated operational and business data from multiple sources using SQL and Power Query to support accurate reporting and analytics.

- Designed, developed and maintained interactive Power BI dashboards, data models and reports, applying Power Query and basic–intermediate DAX measures to deliver clear insights for performance monitoring and decision-making.
- Performed data cleaning, reconciliation, quality assurance checks and anomaly detection to improve the reliability and accuracy of imported and transformed datasets.
- Wrote and optimised SQL queries for data extraction, joins, aggregations, filtering and validation; investigated data issues and supported pre-production testing of outputs.
- Supported the full reporting lifecycle, including documentation of data sources, procedures, validation steps and outputs to ensure consistent use across teams.
- Collaborated with technical and business stakeholders, communicated findings clearly, and delivered accurate, timely work under changing priorities.

Temporary Lecturer – Introduction to Calculus | *University of Johannesburg* | *Feb – May 2025*

- Delivered lectures and tutorials for undergraduate Introduction to Calculus, explaining complex quantitative concepts clearly to diverse student audiences.
- Prepared teaching materials, assessed student work and provided constructive feedback, strengthening analytical communication and attention to detail.
- Facilitated understanding of mathematical principles that underpin data analysis, modelling and problem-solving.

KEY COMPETENCIES

- Strong analytical and numerical ability
- High attention to detail and data accuracy
- Ability to turn data into clear insights
- Stakeholder communication
- Problem-solving and continuous learning
- Collaboration and reliability
- Ability to manage multiple priorities
- Fast learner, willing to expand skills in new tools and technologies

ADDITIONAL INFORMATION

- Available immediately / by arrangement
- Based in Midrand, Gauteng – open to hybrid, on-site or remote arrangements across South Africa
